Online Webinar

**Thursday, December 14**

6:00 PM - 7:00 PM

[CLICK HERE TO REGISTER](#)

Pain in people living with dementia is often underrecognized, underdiagnosed and undertreated.

By increasing our knowledge about the best available pain assessment tools and pain management approaches, we can play an important role in addressing pain and increasing the person's quality of life.

*Free to attend! Registration required. Designed for professionals – open to anyone.*
